

# IN SPACE

## HOW TO WIN ?

To win, simply open the 6 boxes as quickly as possible and build the spaceship that will allow you to leave the TILT-14 nebula.

## GOAL OF THE GAME

Firstly, the goal of the game is to open up with your colleagues despite generational gaps, language barriers and cultural differences. Besides, this game will help you to know more about your place of work, the organization of your company and hopefully you will spend a pleasant time with your colleagues.

## SETTING UP

Group as a team of 6 people and sit down around a table. Each one of you chooses a badge and keeps it throughout the game. Then read the storytelling and start your mission !

## RULES OF THE GAME

As a team of 6 people maximum, you have to read the storytelling and then open the 6 boxes one by one and in order. In each box, you will find a mission card, every player must have read out loud one by the end of the game.

If you are stuck during a mission it is possible to use clues which are stored in the boxes. Opening a clue will give you a penalty.
